"The Water Garden" has a small waterfall and river running into two beautiful lily-covered ponds, both containing koi fish. The garden is planted to suggest a tropical feel with a colourful array of plants, including palms, ferns and grasses. There is a new stumpery, green house, and a new larger waterfall and pond.

Unfortunately, parking is at a premium in the area and we would ask for your patience with volunteers on the day. If you could car pool it would be helpful, thank you.

Tea/coffee and cakes are available in the Art Studio within the garden.

We are a rather small, active, dedicated group of community gardeners beaver away at different projects in the actual garden and community, meeting every Tuesday and Thursday from 10.00ish to 1.00. All are welcome to join and learn or teach us! We do need more helpers, but drop in at the above times.....even for a cuppa!

Our latest project is in developing a pond to attract wild life and visiting birds.

We produce organic vegetables and herbs and we run classes from time to time. We visit schools, and some others come to us doing various projects.

On each day of the Trail at 1pm, we will give a demonstration on the propagation of plants.
